Repeated face trial and error  
curving dimly lit gurning low resolution  
limited colours stained across askew  
shape framed inside shape unframed.  
Pressed nude or suggestion of shirt redone  
mouth turned lip under congest and less  
still try again with still in face right  
click place in space on relentless window.  
Make my mouth bigger by fresh means  
not to meme but to bifurcate anew  
apperception extended self outward upward  
back and on to new platform deleting old.  
Collection of collected selves.
